SPECIFICATION FOR THE APPLICATION OF **STARBLOCK® PRIMER TIPO D**

Temporary encapsulation for removal and disposal operations of type D of asbestos cement slabs.

The application cycle provides the following procedures:

1) Treatment of the surfaces

The surfaces must be treated taking care to adopt all the measures required by current regulations for the protection of operators and to avoid the dispersion in the environment of particulates.

2) Application of the product

The application can be made by roller, brush or spray.

STARBLOCK® PRIMER TIPO D is applied in one coat of **200 g/m²** (quantity calculated on non-absorbent flat surfaces).
